RETURNING STAFF CLINIC REMINDERS

Description

These training sessions require that you stay on groomed runs only. There are no line-cutting privileges for this clinic – no exceptions. This is a paid clinic and participants should conduct themselves as if on-duty teaching a lesson. Participants may wear their uniform for this paid training.

Participants: Instructors attending this clinic should complete a payroll recap for 2 hours with payroll code “MTA”. To receive credit for this clinic all participants should have signed up on the instructor portal. Day of, in person participation - If the clinic groups are too big, and you did not reserve a spot ahead of time, you may not be able to participate due to group sizes.

Clinic Leaders: Please take attendance - a roster will be provided. Write down the names (First and Last) of all people in attendance on the bottom of the printed roster. Please turn in the pre-printed roster to me when you turn in your recap, so everyone gets credit for attending.

General Topics in addition to the LTF Clinic Topic

- ❏ Warm up runs - Stoke factor! Why we love our job - wellness runs.
- ❏ Safer Stopping Zones & Safely moving groups on the hill
- ❏ Your Responsibility Code - how do you teach this?
- ❏ Preventing Lost Children - learn one new technique
- ❏ Teaching Cycle & Checking for Understanding - How do you know they know?
    - ❏ Observe and Evaluate your students before Prescribing (teaching)
    - ❏ Keep and eye on EUA - Engagement, Understanding, Application to evaluate how you’re doing, and what your next move should be
    - ❏ Ask Questions to inform your next decision, rather than just “telling” students what to do
- ❏ Review the First Timer Experience Goals
    - ❏ Goal Based Teaching (opposed to a static progression)
    - ❏ Stepping Stones Goals (maybe not in a specific order)
    - ❏ Use of the new Learning Terrain Features
    - ❏ Guests “trying” snowsports - More FUN sooner!
    - ❏ Alpine: Smaller wedge for lateral stability - emphasis on gliding (not braking)
- ❏ Beyond Beginner
    - ❏ Alpine - Wedge Christie with “accelerating wedge” (not braking) - don’t know what this is? See Tyler
    - ❏ Snowboard - Best practices for first linked turns - group shares what they do, you guide them to what is “best practices”
